

Open letter to Furzehill residents, 25 March 2020

Good morning everyone. I apologise if you have any concerns regarding what exactly your Parish Councils are doing to support you. May I reassure you that we are working hard at the moment, it just takes time to get systems in place and to undertake the work needed. Everything is taking considerably longer too due to the restrictions which we are all subject to.

Colehill Parish Council has produced a leaflet giving details of who to contact should you need help locally, particularly if our team of volunteers in Furzehill cannot support you for any reason. This leaflet should be delivered in the next couple of days; please accept my apologies if you live in Holt Parish and receive a leaflet, we are not trying to entice you, we just wish to share information.

We have also set up a separate [Resilience](#) section of Colehill Parish Council website, which I would ask you to visit, simply to become aware of what services are available either from, coordinated by or available through us.

Please stay safe, we are in this for the long haul and together we will come through this.

Kind regards

Stefan
